

Lite-Site 10

CDMI's Lite-Site 10 is a small on grade foundation system that supports monopoles up to 75'. The foundation consists of 3 trays and 4 channels that bolt together. Ballast is added to the foundation and the monopole is attached by anchor bolts. When assembled, the Lite-Site 10 creates a 10' x 10' footprint. Installation of the entire site can be completed in a few hours.
